

What is a Community Alert?

Modeled after the *Neighborhood Watch* concept, *Community Alert* seeks to reduce crime and the fear of crime from both the merchant and the citizen's point of view. *Community Alert* strengthens the relationship between local merchants and police, as well as providing educational information about crime prevention.

It Involves:

- Business & Community Neighbors getting to know each other and working together on crime prevention issues.
- Implementing crime prevention techniques and strategies in businesses and neighborhoods.
- Helping to solve problems in the business community through a partnership between you and the police department.
- Providing a merchant warning system.

Cody Community Alert Program

How Does It Work?

When the Cody Police Department receives information that it deems important for business owners and citizens to know, we will email those registered in the program. Lost or stolen check information, fraudulent use of credit cards, shoplifters, problem customer alerts or any criminal activity which may touch your business or our community is passed along in a timely and efficient manner.

Area Businesses and citizens are also encouraged to get involved and to participate in the sharing of information with the police department and others in the community.

How Do I Get Involved?

1. Complete the registration form on the back of this brochure.
2. Detach and return the form to the Cody Police Department.
3. There is no cost for participation in this program.
