## Cody Pickleball Club Pickleball Court Development

### ACTION TO BE TAKEN

Authorize the Cody Recreation Foundation (CRF) to construct outdoor pickleball courts on City property. There will not be any additional cost to the City of Cody for construction, operation, or maintenance of the pickleball courts.

### SUMMARY OF INFORMATION

Pickleball is the most popular park activity since dog parks and skate parks. There is a tremendous social and health value for participants in this sport. The Pickleball Club has been researching locations, engineering, cost, and construction. Approval from the Shoshone Recreation District Board will provide partial funding for professional services, engineering and designs. Several locations have been considered and the list has been narrowed down to three sites for consideration.

The top three locations identified by the Pickleball Club.

1. **Paul Stock Park on 8<sup>th</sup> Street and Sheridan Ave.** (AKA Chamber of Commerce tennis courts.) Even with the new tennis courts at the middle school, there is still value to these courts for tennis. The Chamber courts are lighted and use an Omni court surface. The Omni surface is more difficult to maintain than asphalt or concrete courts and not suitable for high school competitions.

The tennis courts at the Chamber of Commerce have been considered for parking for several years. Other potential uses for the space, include refurbished tennis courts, pickleball, and Visitor Center building. The existing tennis courts are frequently used by tennis teams during peak season for tournaments and casual play.

The location provides enough space for up to eight pickleball courts. There are not any public restrooms at this location. The closest public bathrooms are in City Park and indoors at the Chamber of Commerce building.

2. **Glendale Park** tennis court is a single court mostly used by kids on skates, skate boards, and bikes. The Glendale court requires a complete renovation. The neighborhood may not accept the increased noise and use at Glendale Park. There are bathrooms, lights, playground, and shelter at this location. The space would accommodate four courts.

**AGENDA ITEM NO. \_\_\_\_\_**

3. **Dorse Miller Park**, (AKA Highland Manor) Dorse Miller Park provides the best growth and expansion options. There are currently two lighted tennis courts at this location. The Omni surface at Dorse Miller courts require improvements. Renovation costs are in the \$16,000-\$25,000 per court. The neighborhood may accept the additional court play since there is already like activity in the park. There is a basketball court, playground, shelter, and vault toilet at this facility.

#### FISCAL IMPACT AND LONGEVITY

Some people said skate parks are a fad and they are not going to last. Skate parks are one of the most used facilities. Ideally we do not want a blue box on a million dollar corner.

#### ALTERNATIVES

1. Authorize the construction of pickleball courts at Chamber tennis courts, or Dorse Miller Park, or Glendale Park.
2. Deny the request for building a pickleball court.
3. Seek other locations to be considered. There are some tennis advocates that would like to leave the Paul Stock Courts at their current location.

**SRD Board Meeting--Thursday, November 9, 2017**

Pickleball. Momentum seems to be building again for outdoor pickleball courts. Interest has also been expressed by possible donors. Although a site and number of courts needs to be identified, Dorse Miller Park is the preferred location. A motion was made by Scott Aune to approve up to \$5,000 for a schematic design. Once the design and cost per court is known, with the SRDs approval to move forward, potential donors could then be approached and community involvement sought. Dan Haman seconded the motion. Sarah Mikesell Growney, Alan Rosenbaum, Dossie Overfield and Rick Stonehouse opposed. Feeling that prior to SRD committing to a feasibility design study that potential donors should be approached first. Considering a lesser funding level for the design study was also talked about. Motion carried.

**SRD Board Meeting--Thursday, December 14, 2017**

Pickleball update. Jake Ivanoff and Scott Aune have visited with potential donors that are interested in outdoor pickleball courts. It is possible that funding for resurfacing and netting could be contributed. It was felt that much of the tennis needs in the community has been met with the new Middle School Tennis Courts. Tony Hult mentioned that the School District still uses other City tennis courts during events such as regionals, when more courts are needed. Initially rehabbing existing tennis courts instead of constructing a new complex, at this time, was thought to be a better idea. Cost would be considerably less for rehabbing too. If successful, a pickleball complex could be considered in the future. The courts could also be converted back in the future, if necessary. Another thought was to look into redoing the courts with a compatible surface so they could be used for both outdoor activities. City Council would need to be approached for their approval of this proposed project. Scott would like to move forward by the spring of 2018. The general consensus favored the Paul Stock courts.

Locations Identified	Pros	Cons	Comments
Paul Stock Tennis Courts	6 pickleball courts could be installed on the 2 tennis courts.  Good visual standpoint.	If the use or ownership of the Chamber area would change in the future.  In the past there has been conversation about RV parking.	Suggested to contact the Chamber to ask for their thoughts on this project.

	<p>Sound &amp; noise issues WOULD NOT be as evident since this location is not directly in a neighborhood.</p> <p>Parking.</p>		
Dorse Miller Park	6 pickleball courts could be done on the 2 tennis courts.	<p>The 2 tennis courts are used by many tennis players during the summer.</p> <p>Park is also used heavily used for baseball practices.</p> <p>Sound &amp; noise issues COULD BE more of a problem in this neighborhood.</p>	
Glendale Park		<p>Only 1 tennis court available. Would lessen the number of pickleball courts.</p> <p>Park is also used heavily for baseball practices.</p> <p>Sound &amp; noise issues COULD BE a factor in this neighborhood too.</p>	
Other potential sites on City property?			<p>Baseball field area.</p> <p>Any others?</p>

A motion was made by Dossie Overfield to authorize Rick Manchester to look into converting the Paul Stock Tennis Courts, near the Chamber, into pickleball & tennis courts. Melissa Allen seconded the motion. Motion carried. \$5,000 was approved at the November board meeting to research a schematic design and cost. Jake Ivanoff will follow-up concerning contact with the Chamber of Commerce. More information will be presented to the SRD as it becomes available.

**SRD Board Meeting--Thursday, January 11, 2018**

Pickleball Update. Jake reported that the potential donors, interested in outdoor pickleball courts, feel that any of the locations identified would be fine. It was felt that if space can be confirmed, that the group can begin conversations to organize. The group

could then also consider applying for a SRD grant during the upcoming budget process. Stan will be discussing this potential project, and splash pad idea, at the January 26<sup>th</sup> City Council retreat.

**SRD Board Meeting--Thursday, February 8, 2018**

Pickleball. It was mentioned that a Chamber of Commerce Enhancement proposal, at the existing location, is being discussed. Their proposal also includes the removal of the tennis courts for RV parking. Another concern would be if the use or ownership of the Chamber area would change in the future. With regards to pickleball courts, other locations may need to be looked at for Council to consider. After discussion, it was noted that the SRD is only a funding source and not responsible for the planning of the project. Planning, and a location is needed to be identified by the pickleball group before further consideration. The group could then consider applying for a SRD grant during the upcoming budget process.
