WYOMING

Dear Resident,

The Solid Waste Division will be replacing all short, square bodied roll-outs with new containers next month.

Once your container is emptied the week of November 2^od please leave it at the curb so this replacement may take place.

Replacement is necessary due to changes in the equipment on our solid waste trucks.

If you have any questions please contact the Solid Waste Division at 587-2958.

Thank you for your cooperation.
